

Ula'tek			
The Mother Monster			
OVERVIEW			Phases: 4 Hero: N/A
Lots of egg management! We must carry certain eggs (don't touch other eggs) into mechanics that hatch them, then kill the add inside. Other eggs will naturally hatch, but we must weaken them first to prevent empowered adds. Then finally figure out a way to destroy the boss herself before she breaks the platform into too many pieces to fit the team.			SPECIAL NOTES
			Immunities – N/A Dispels – Multiple Poison Debuffs Interrupts – Anguished Cry, Vicious Echoes
TANK Stay near Ula'tek at all times, even when she tries to knock you back.	Healer Dispel Poison debuffs.	DPS Prioritize the correct add. Save CDs to take out dangerous waves of adds.	
Phase 1			ABILITIES
COMING SOON The final boss was not available for testing on PTR, so more information will come once strategy has been determined for the boss.			
MYTHIC ONLY			
Additional powerful adds spawn. Player debuffs now add an additional layer when they expire - for example, shooting out acid waves.
